## MISSION STATEMENT

With “The Band Stand” we aim to create a new platform for music lovers to not only share their vintage merchandise but share their favorite musical experiences with each other. The idea of vintage clothing has been around forever but it has become too commercialized, too impersonal. Wouldn’t it be better to get a story to go along with a special t-shirt its owner wishes to pass down? The Band Stand” will start as an online only community but plans to quickly organize meetups in places across the globe where music lovers can get together and enact our app in person; selling, buying, and swapping merch. That said we do not plan to alienate the shyers among us and will create a simple to use store for people to upload and purchase their favorite pieces. Wouldn’t you want to be part of a new experience bringing together people across the globe through their love of music and merch!
